Inhalt

Seite

Bieri, Robert and **J. R. J. Groves,** The geometry of the set of characters induced by valuations 168

Buchta, Christian, Zufallspolygone in konvexen Vielecken 212

Cohen, A. M. and **H. Zantema,** A computation concerning doubly transitive permutation groups 196

Ershov, Yu. L., Two theorems on regulary *r*-closed fields 154

Goodman, Roe and **Nolan R. Wallach,** Structure and unitary cocycle representations of loop groups and the group of diffeomorphisms of the circle 69

Groves, J. R. J., siehe Bieri, Robert

Győry, K., Correction to the paper: Effective finiteness theorems for polynomials with given discriminant and integral elements with given discriminant over finitely generated domains..... 167

Jackson, Brad and **Gerhard Ringel,** Solution of Heawood's empire problem in the plane 146

Johnson, David L., Secondary characteristic classes and intermediate Jacobians.... 134

Ôta, Schôichi, Commutants of unbounded derivations in C^*-algebras..... 21

Pukanszky, L., Symplectic structure on generalized orbits of solvable Lie groups... 33

Ringel, Gerhard, siehe Jackson, Brad

Schwartz, Niels, Chain signatures and real closures 1

Wallach, Nolan R., siehe Goodman, Roe

Zantema, H., siehe Cohen, A. M.
